Dear Supervisors:

**APPROVE THE AGREEMENT WITH APPROVA CORPORATION FOR ACQUISITION OF
CONTINUOUS CONTROLS MONITORING SOFTWARE AND RELATED IMPLEMENTATION,
MAINTENANCE AND SUPPORT SERVICES
(ALL SUPERVISORIAL DISTRICTS – 3 VOTES)**

CIO RECOMMENDATION: APPROVE (X)

**CIO RECOMMENDATION: APPROVE (X) APPROVE WITH MODIFICATION ()
DISAPPROVE ()**

SUBJECT

Approve the Software License Agreement (Agreement) for the purchase of Continuous Controls Monitoring (CCM) software to electronically monitor financial transactions across all County departments, including the related professional implementation, maintenance and support services of the CCM software.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and direct the Auditor-Controller (A-C) to execute the attached proposed Agreement with Approva Corporation for a fixed-price, one-time software purchase plus implementation services not to exceed five hundred seventy seven thousand two hundred twenty six (\$577,226) dollars for one-year.
2. Delegate to the A-C the authority to exercise the options for the related software maintenance and support services for five (5) years with two (2) one-year option extensions not to exceed \$56,000 per year.
3. Delegate to the A-C the authority to execute necessary amendments to the Agreement to purchase up to five additional modules at the current price of \$50,000 per module, not to exceed \$250,000 in the aggregate, for a period of 12 months from the date of the Agreement.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

As the County's volume of electronic computer transactions continues to grow, with approximately 8,200 users processing close to five million payment transactions each year in the County financial system (eCAPS), the review and oversight of those transactions for adherence to established County fiscal policies and controls have become a major challenge.

To meet these challenges, the A-C currently employs limited desktop data analysis software to analyze computerized financial data and determine individual departments' level of adherence to County fiscal policies. While the desktop analysis software helps achieve some level of review of financial transactions, it does not offer the benefits of a continuous Countywide CCM strategy. The CCM software will constantly evaluate electronic transactions for compliance with the County's procedures and rules and will identify exceptions on a real-time basis for evaluation and follow-up.

Continuous controls monitoring is a state of the art approach that will provide better oversight of County financial transactions and enable the County to more efficiently and effectively safeguard assets in all departments. CCM is an essential part of many Fortune 500 businesses' efforts to ensure the effectiveness of their internal controls, reduce the risk of fraud and improve their operations. The County's external auditors have indicated that they consider CCM to be a "best practice" for their government clients.

The A-C proposes to acquire CCM software to continuously monitor the following processes:

- Purchases and Payments – Monitors procurement transactions on an ongoing basis to ensure purchases and payments are accurate, properly approved and appropriate. For example, the CCM software will monitor for potential split purchases and duplicate payments to vendors, as well as ensure the purchase/payment approvals comply with the County's fiscal requirements.
- General Ledger – Monitors general ledger accounting transactions to ensure journal entries, changes to chart of accounts and accounting configurations that impact the County's financial records are appropriate. For example, the CCM software will monitor general ledger postings for unusual activity and detect exceptional changes in account balances, including manual entries, non-routine transactions and entries to sensitive accounts.
- Segregation of Duties – Monitors business rule applications to identify and report users whose access assignment violates County rules and provides an automated strategy to help correct the control issues. For example, the CCM software will monitor existing user accounts and role assignments, and report on users who have the incompatible roles, such as the ability to enter and approve payments. The CCM software can also be used by the eCAPS Security Team to perform "what if" analysis, such as identifying potential access assignment violations before access is granted.

In the coming years, the implementation of the online Countywide Human Resources (eHR) application will place additional challenges to ensure that County fiscal policies are being followed. The CCM software can be extended through additional modules to cover eHR as well as eCAPS.

Implementation of Strategic Plan Goals

The recommended action supports the County's Strategic Plan Goals for Operational Effectiveness (Goal 1), Fiscal Sustainability (Strategy 1), and Service Excellence and Organizational Effectiveness (Strategy 2). It is also the key element of A-C's internal Strategic Plan to develop and implement CCM to electronically analyze and review financial transactions across all County departments.

FISCAL IMPACT/FINANCING

In October 2008, your Board approved funding for the A-C to implement three information technology initiatives using the Chief Executive Office's (CEO) Information Technology Fund. One of the three initiatives was the CCM project to monitor transactions Countywide for compliance with County fiscal policies, and to detect and mitigate fraudulent activities. The proposed Agreement of \$577,226 is a fixed-price, deliverables-based contract to purchase the software and implementation services for one-year.

After the first year, funds for annual maintenance and support services of \$56,000 and any additional modules purchased of \$50,000 per module, not to exceed \$250,000 in the aggregate, will come from the A-C's annual operating budget. The Internal Services Department's (ISD) annual charges of approximately \$98,000 for server maintenance and support will also come from the A-C's annual operating budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Section 26881 of the Government Code specifies that, upon order of the Board of Supervisors, the A-C has the “ability to review departmental and countywide internal controls, over the accounting forms and the method of keeping the accounts of all offices, departments and institutions under the control of the Board of Supervisors”.

Approva Corporation requested during negotiations that its liability be limited under the Agreement, which is a departure from the County’s preferred position. The negotiated provisions (1) cap Approva Corporation’s liability for monetary damages to the County at \$1,000,000 and (2) specify that Approva Corporation will not have any liability to the County for special, consequential, exemplary, incidental, or indirect damages, even if advised of the possibility of such damages. The provisions specify, however, that these two limitations do not apply to the following: (a) Approva Corporation’s intellectual property and general indemnification obligations; (b) Approva Corporation’s obligations under Paragraph 72 (Compliance with Applicable Laws); (c) Approva Corporation’s obligations under Paragraph 16 (Insurance); (d) claims and actions relating to personal injury, including but not limited to wrongful death; and (e) Approva Corporation’s intentional or willful misconduct.

The A-C believes the above-described limitation of liability of \$1 million to be an acceptable level for the County’s protection, as the total value of the Agreement is \$577,226. CEO’s Risk Management Operations concurs with the A-C’s determination.

The proposed Agreement has been approved by County Counsel as to form. The Chief Information Office (CIO) has also reviewed and recommended approval of this Agreement.

The contractor is in compliance with all Board, Chief Executive Officer, and County Counsel requirements.

CONTRACTING PROCESS

On December 5, 2008, the A-C issued a Request for Information (RFI) to identify potential vendors and CCM software products available in the emerging CCM marketplace. A notice of the RFI was also placed on the County's bid website and the A-C's website. Additionally, the A-C identified several CCM software vendors through Internet searches and e-mailed the RFI directly to them.

On May 1, 2009, the A-C issued the CCM software Request for Proposals (RFP). A notice of the RFP was placed on the County's bid website (Solicitation Number AU-CCM050109) and the A-C's website. The A-C also e-mailed the RFP directly to CCM software vendors previously identified through the RFI process and Internet searches. Moreover, the A-C consulted with the CIO's technology industry research advisors to identify additional CCM software vendors. Two proposals were received by the submission deadline of May 29, 2009. Both proposals met the minimum requirements in the RFP and were then evaluated by an evaluation committee consisting of representatives from the CIO, ISD and the A-C.

The A-C sought CCM software that covered four areas of functionality: transaction monitoring, segregation of duties monitoring, master data management, and application configuration. The Approva software was the only product that provided functionality in all four areas. The proposal from Approva Corporation received the highest score from the evaluation committee and was the committee's recommended selection. The committee's evaluation was based on the criteria described in the RFP, and, as indicated, Approva Corporation received the highest evaluation score and advanced to the next round, where negotiations began for a Software Licensing Agreement (SLA). All negotiations were successfully completed by September 2009. There were no protests lodged by the non-selected proposer after it was informed of the intention to recommend a contract with the selected proposer.

The A-C's evaluation has determined that the Living Wage Program (County Code Chapter 2.201) does not apply to the recommended Agreement.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The implementation of CCM software has the potential to improve business processes at various organizational levels, increase detection of County computerized transactions that are non-compliant with County policies, including identify potential fraud, promote improved internal controls and improve the safeguarding of County assets.

CONCLUSION

Upon approval by your Board, it is requested that the Executive Officer-Clerk of the Board return one adopted copy of the Board letter.

Project/Contract Description:

The Auditor-Controller (A-C) is requesting approval of an Agreement with Approva Corporation (Approva) for the purchase of Continuous Controls Monitoring (CCM) software and related professional services to automate examination of countywide financial transactions. The Agreement term is for five years with two one-year optional extensions. The maximum contract sum for the software purchase, implementation services, and one-year of software maintenance and support services is \$577,226. The A-C is also requesting delegated authority to exercise options for software maintenance and support services through the base term and optional extensions for a maximum of \$56,000 per year. In addition, the A-C is requesting delegated authority to execute future amendments to acquire additional CCM software, which could increase the contract sum by an additional \$250,000.

Background:

After Board approval to fund the proposal for automated mining of financial data using the CEO's Information Technology Fund in October 2008, the A-C staff did a survey of data mining software and determined that CCM software was an emerging technology that best fit their requirements rather than generic data mining products.

The A-C identified and contacted 15 CCM software vendors. In December 2008, the Department issued a Request for Information (RFI) that received four responses, and issued a Request for Proposals (RFP) in May 2009 which received two responses.

Contract negotiations with the highest scoring vendor in the RFP, Approva, began in August 2009 and completed in September 2009.

Project Justification/Benefits:

CCM monitors enterprise resource planning (ERP) systems and financial application controls to improve financial governance and automate audit processes. The software ensures that business rules and policies are effective and reduces compliance and audit costs by eliminating much of the manual sampling and minimizing the time it takes to gather documentation.

Under this Agreement, the A-C will initially acquire and implement three CCM modules: Purchase to Payment, General Ledger, and Segregation of Duties. Purchases to Payments and General Ledger will monitor procurement and accounting transactions to ensure appropriateness and Segregation of Duties will monitor eCAPS user access and role changes for control violations.

Industry analysts report that CCM monitoring of financial transactions can produce a quick return on investment by identifying failures of internal controls and combating fraud. Other financial transaction modules, such as Travel and Entertainment Expenses and Purchase Cards can be added for additional monitoring.

Project Metrics:

The A-C will be monitoring the effectiveness of professional services provided from Approva in accordance with the Statement of Work.

Upon successful implementation of the software, audit coverage will expand from a sampling of transactions to 100% testing of transactions. Transactions will be reviewed with all County departments on a more consistent basis. The safeguarding of County resources will be improved by the timely identification of non-compliance with County fiscal controls and improvements to controls over financial transactions.

Alternatives Considered:

General purpose data mining software was considered initially and eliminated due to the considerable software development effort required. Since the preferred solution, which was a CCM product with preconfigured libraries for the County's eCAPS application, did not exist, the best remaining alternative was a CCM product that could be adapted easily to eCAPS with minimal configuration and supports complete CCM functionality.

Project Risks:

Many CCM implementations make use of preconfigured software libraries tailored specifically for their ERP software. However, the County cannot use preconfigured libraries for eCAPS, since no customer using CGI Advantage (eCAPS software) has implemented technology. The County implementation will require software customizations made specifically to interface Approva with CGI Advantage. There is a risk of project delays due to unforeseen customizations and data issues.

Risk Mitigation Measures:

The A-C project team is developing plans to mitigate project risks through executive sponsorship, stable project staffing, performance and data validation, clear roles and responsibilities, and well-defined objectives. In addition, Approva is being strongly encouraged to work with CGI to minimize any data issues.

Financial Analysis:

The project is fully funded from the CEO Information Technology Fund. The contract uses \$577,226 of the \$600,000 allocated to the project.

Description	Cost
Approva Software Licenses	\$280,000
Approva Software Maintenance – First Year	\$56,000
Professional Services for the Base Platform	\$22,523
Professional Services for Purchase to Pay	\$56,306
Professional Services for General Ledger	\$49,550
Professional Services for Segregation of Duty	\$96,847
Training	\$16,000
Total	\$577,226

The implementation will leverage the existing eCAPS and eHR computing infrastructure. The future annual software maintenance costs of \$56,000, and yearly ISD server operational costs of \$98,000 will be funded from the A-C's annual operating budget.

CIO Concerns:

None.

Recommendations:

The A-C's Continuous Controls Monitoring software project is aligned with the County's Strategic Plan and supports the County's IT Strategic Directions. This is a great example of technology and automated labor-intensive tasks. The Chief Information Office supports this action and recommends Board approval.

While County reserves the right to determine independently that the anti-discrimination provisions of this Agreement have been violated, in addition, a determination by the California Fair Employment Practices Commission or the Federal Equal Employment Opportunity Commission that Contractor has violated State or Federal anti-discrimination laws or regulations shall constitute a finding by County that Contractor has violated the anti-discrimination provisions of this Agreement.

Should Contractor require additional or replacement personnel after the Effective Date, Contractor shall give consideration for any such employment openings to participants in the County's Department of Public Social Services' Greater Avenues for Independence (GAIN) Program or General Relief Opportunity for Work (GROW) Program who meet Contractor's minimum qualifications for the open position. For this purpose, consideration shall mean that Contractor will interview qualified candidates. County will refer GAIN participants by job category to Contractor.

In the event that both laid-off County employees and GAIN/GROW participants are available for hiring, Contractor shall give County employees first priority.

77.3 Prohibition against Inducement and Persuasion

Contractor and County agree that, during the term of this Agreement and for a period of one (1) year thereafter, neither party shall in any way intentionally induce or persuade any employee of one party to become an employee or agent of the other party. Notwithstanding the foregoing, such prohibition shall not apply to any hiring action initiated through a public announcement.

77.4 Notice to Employees Regarding the Federal Earned Income Credit

If required by applicable law, Contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws. Such notice shall be provided, in accordance with the requirements set forth in Internal Revenue Service Notice 1015.

78.0 CONTRACTOR RESPONSIBILITY AND DEBARMENT

78.1 Responsible Contractor

A responsible contractor is a contractor who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity and experience to satisfactorily perform the contract. It is the County's policy to conduct business only with responsible contractors.

78.2 Chapter 2.202 of the County Code

The Contractor is hereby notified that, in accordance with Chapter 2.202 of the County Code, if the County acquires information concerning the performance of the Contractor on this or other contracts which indicates that the Contractor is not responsible, the County may, in addition to other remedies provided in the Agreement, debar the Contractor from bidding or proposing on, or being awarded, and/or performing work on County contracts for a specified period of time, which generally will not exceed five years but may exceed five years or be permanent if warranted by the circumstances, and terminate any or all existing contracts the Contractor may have with the County.

78.3 Non-responsible Contractor

The County may debar a contractor if the Board of Supervisors finds, in its discretion, that the contractor has done any of the following: (1) violated a term of a contract with the County or a nonprofit corporation created by the County, (2) committed an act or omission which negatively reflects on the contractor's quality, fitness or capacity to perform a contract with the County, any other public entity, or a nonprofit corporation created by the County, or engaged in a pattern or practice which negatively reflects on same, (3) committed an act or offense which indicates a lack of business integrity or business honesty, or (4) made or submitted a false claim against the County or any other public entity.

78.4 Contractor Hearing Board

- 78.4.1 If there is evidence that the Contractor may be subject to debarment, the Department will notify the Contractor in writing of the evidence which is the basis for the proposed debarment and will advise the Contractor of the scheduled date for a debarment hearing before the Contractor Hearing Board.
- 78.4.2 The Contractor Hearing Board will conduct a hearing where evidence on the proposed debarment is presented. The Contractor and/or the Contractor's representative shall be given an opportunity to submit evidence at that hearing. After the hearing, the Contractor Hearing Board shall prepare a tentative proposed decision, which shall contain a recommendation regarding whether the Contractor should be debarred, and, if so, the appropriate length of time of the debarment. The Contractor and the Department shall be provided an opportunity to object to the tentative proposed decision prior to its presentation to the Board of Supervisors.
- 78.4.3 After consideration of any objections, or if no objections are submitted, a record of the hearing, the proposed decision, and any other recommendation of the Contractor Hearing Board shall be presented to the Board of Supervisors. The Board of Supervisors shall have the right to modify, deny, or adopt the proposed decision and recommendation of the Contractor Hearing Board.
- 78.4.4 If Contractor has been debarred for a period longer than five (5) years, Contractor may after the debarment has been in effect for at least five (5) years, submit a written request for review of the debarment determination to reduce the period of debarment or terminate the debarment. The County may, in its discretion, reduce the period of debarment or terminate the debarment if it finds that the Contractor has adequately demonstrated one or more of the following: (1) elimination of the grounds for which the debarment was imposed; (2) a bona fide change in ownership or management; (3) material evidence discovered after debarment was imposed; or (4) any other reason that is in the best interests of the County.
- 78.4.5 The Contractor Hearing Board will consider a request for review of a debarment determination only where (1) the contractor has been debarred for a period longer than five (5) years; (2) the debarment has been in effect for at least five (5) years; and (3) the request is in writing, states one or more of the grounds for reduction of the debarment period or termination of the debarment, and includes supporting documentation. Upon receiving an appropriate request, the Contractor Hearing Board will provide notice of the hearing on the request. At the hearing, the Contractor Hearing Board shall conduct a hearing where evidence on the proposed reduction of debarment period or termination of debarment is presented. This hearing shall be conducted and the request for review decided by the Contractor Hearing Board pursuant to the same procedures as for a debarment hearing.

78.4.6 The Contractor Hearing Board's proposed decision shall contain a recommendation on the request to reduce the period of debarment or terminate the debarment. The Contractor Hearing Board shall present its proposed decision and recommendation to the Board of Supervisors. The Board of Supervisors shall have the right to modify, deny, or adopt the proposed decision and recommendation of the Contractor Hearing Board.

82.0 CONTRACTOR PERFORMANCE DURING CIVIL UNREST AND DISASTER

Contractor recognizes that County provides services essential to the residents of the communities it serves, and that these services are of particular importance at the time of a riot, insurrection, civil unrest, natural disaster or similar event. Notwithstanding any other provision of this Agreement, full performance by Contractor during any riot, insurrection, civil unrest, natural disaster or similar event is not excused if such performance remains physically possible without related danger to Contractor's or subcontractors' employees and suppliers. During any such event in which the health or safety of any of Contractor's staff members would be endangered by performing their services on-site, such staff members may perform any or all of their services remotely.

The fact sheet is available on the Internet at <http://babysafela.org> for printing purposes.

88.2 Contractor acknowledges that County places a high priority on the implementation of the Safely Surrendered Baby Law. County's Department of Children and Family Services will supply Contractor with the poster to be used.

90.1 Jury Service Program

This Agreement is subject to the provisions of the County's ordinance entitled Contractor Employee Jury Service ("Jury Service Program") as codified in Sections 2.203.020 through 2.203.090 of the Los Angeles County Code, a copy of which is attached as Exhibit H and incorporated herein.

90.2 Written Employee Jury Service Policy

90.2.1 Unless Contractor has demonstrated to the County's satisfaction either that Contractor is not a "Contractor" as defined under the Jury Service Program (Section 2.203.020 of the County Code) or that Contractor qualifies for an exception to the Jury Service Program (Section 2.203.070 of the County Code), Contractor shall have and adhere to a written policy that provides that its Employees shall receive from the Contractor, on an annual basis no less than five days of regular pay for actual jury service. The policy may provide that Employees deposit any fees received for such jury service with the Contractor or that the Contractor deduct from the Employee's regular pay the fees received for jury service.

- 90.2.2 For purposes of this Section, “Contractor” means a person, partnership, corporation or other entity which has a contract with the County or a subcontract with a County contractor and has received or will receive an aggregate sum of \$50,000 or more in any 12 month period under one or more County contracts or subcontract. “Employee” means any California resident who is a full time employee of Contractor. “Full time” means 40 hours or more worked per week, or a lesser number of hours if the lesser number is a recognized industry standard and is approved as such by the County. If Contractor uses any subcontractor to perform services for the County under the Contract, the subcontractor shall also be subject to the provisions of this Section. The provisions of this Section shall be inserted into any such subcontract agreement and a copy of the Jury Service Program shall be attached to the agreement.
- 90.2.3 If Contractor is not required to comply with the Jury Service Program when the Contract commences, Contractor shall have a continuing obligation to review the applicability of its “exception status” from the Jury Service Program, and Contractor shall immediately notify County if Contractor at any time either comes within the Jury Service Program’s definition of “Contractor” or if Contractor no longer qualifies for an exception to the Program. In either event, Contractor shall immediately implement a written policy consistent with the Jury Service Program’s definition of “Contractor” and/or Contractor continues to qualify for an exception to the Program.
- 90.2.4 Contractor’ violation of this Section of the contract may constitute a material breach of the Contract. In the event of such material breach, County may, in its sole discretion, terminate the Contract and/or bar Contractor from the award of future County contracts for a period of time consistent with the seriousness of the breach.

91.0 CONTRACTOR’S WARRANTY OF ADHERENCE TO COUNTY’S CHILD SUPPORT COMPLIANCE PROGRAM

- 91.1 The Contractor acknowledges that the County has established a goal of ensuring that all individuals who benefit financially from the County through Contract are in compliance with their court ordered child, family and spousal support obligations in order to mitigate the economic burden otherwise imposed upon the County and its taxpayers.
- 91.2 As required by the County’s Child Support Compliance Program (County Code Chapter 2.200) and without limiting the Contractor’s duty under this Contract to comply with all applicable provisions of law, the Contractor shall comply with employment and wage reporting requirements as required by the Federal Social Security Act (42 USC Section 653a) and California Unemployment Insurance Code Section 1073.5 relating to employment reporting for its employees, and shall fully comply with all lawfully served Wage and Earnings Withholding Orders or Child Support Services Department Notices of Wage and Earnings Assignment for Child Family or Spousal Support, pursuant to Code of Civil Procedure Section 706.031 and Family Code Section 5246(b).
- 91.3 Failure to comply with such state and federal reporting requirements, or failure to fully implement such lawfully served Orders or Notices, constitutes a default under the contract, and failure to cure the default within 90 days of notice by the County shall subject the contract to termination. Furthermore Contractor’s failure to comply with these requirements may be cause for debarment.

92.0 GOVERNING LAW, JURISDICTION, AND VENUE

This Contract shall be governed by, and construed in accordance with, the laws of the State of California. The Contractor agrees and consents to the exclusive jurisdiction of the courts of the State of California for all purposes regarding this Contract and further agrees and consents that venue of any action brought hereunder shall be exclusively in the County of Los Angeles.

93.0 VALIDITY

If any provision of this Contract or the application thereof to any person or circumstance is held invalid, the remainder of this Contract and the application of such provision to other persons or circumstances shall not be affected thereby.

CONTRACTOR EMPLOYEE JURY SERVICE

2.203.010 Findings.

The board of supervisors makes the following findings. The county of Los Angeles allows its permanent, full-time employees unlimited jury service at their regular pay. Unfortunately, many businesses do not offer or are reducing or even eliminating compensation to employees who serve on juries. This creates a potential financial hardship for employees who do not receive their pay when called to jury service, and those employees often seek to be excused from having to serve. Although changes in the court rules make it more difficult to excuse a potential juror on grounds of financial hardship, potential jurors continue to be excused on this basis, especially from longer trials. This reduces the number of potential jurors and increases the burden on those employers, such as the county of Los Angeles, who pay their permanent, full-time employees while on juror duty. For these reasons, the county of Los Angeles has determined that it is appropriate to require that the businesses with which the county contracts possess reasonable jury service policies. (Ord. 2002-0015 § 1 (part), 2002)

Safely Surrendered *Baby Law*

What is the Safely Surrendered Baby Law?

California's Safely Surrendered Baby Law allows parents or other persons, with lawful custody, which means anyone to whom the parent has given permission to confidentially surrender a baby. As long as the baby is three days (72 hours) of age or younger and has not been abused or neglected, the baby may be surrendered without fear of arrest or prosecution.

How does it work?

A distressed parent who is unable or unwilling to care for a baby can legally, confidentially, and safely surrender a baby within three days (72 hours) of birth. The baby must be handed to an employee at a hospital or fire station in Los Angeles County. As long as the baby shows no sign of abuse or neglect, no name or other information is required. In case the parent changes his or her mind at a later date and wants the baby back, staff will use bracelets to help connect them to each other. One bracelet will be placed on the baby, and a matching bracelet will be given to the parent or other surrendering adult.

What if a parent wants the baby back?

Parents who change their minds can begin the process of reclaiming their baby within 14 days. These parents should call the Los Angeles County Department of Children and Family Services at 1-800-540-4000.

Can only a parent bring in the baby?

No. While in most cases a parent will bring in the baby, the Law allows other people to bring in the baby if they have lawful custody.

Does the parent or surrendering adult have to call before bringing in the baby?

No. A parent or surrendering adult can bring in a baby anytime, 24 hours a day, 7 days a week, as long as the parent or surrendering adult surrenders the baby to someone who works at the hospital or fire station.

Does the parent or surrendering adult have to tell anything to the people taking the baby?

No. However, hospital or fire station personnel will ask the surrendering party to fill out a questionnaire designed to gather important medical history information, which is very useful in caring for the baby. The questionnaire includes a stamped return envelope and can be sent in at a later time.

What happens to the baby?

The baby will be examined and given medical treatment. Upon release from the hospital, social workers immediately place the baby in a safe and loving home and begin the adoption process.

What happens to the parent or surrendering adult?

Once the parent or surrendering adult surrenders the baby to hospital or fire station personnel, they may leave at any time.

Why is California doing this?

The purpose of the Safely Surrendered Baby Law is to protect babies from being abandoned, hurt or killed by their parents. You may have heard tragic stories of babies left in dumpsters or public bathrooms. Their parents may have been under severe emotional distress. The mothers may have hidden their pregnancies, fearful of what would happen if their families found out. Because they were afraid and had no one or nowhere to turn for help, they abandoned their babies. Abandoning a baby is illegal and places the baby in extreme danger. Too often, it results in the baby's death. The Safely Surrendered Baby Law prevents this tragedy from ever happening again in California.

A baby's story

Early in the morning on April 9, 2005, a healthy baby boy was safely surrendered to nurses at Harbor-UCLA Medical Center. The woman who brought the baby to the hospital identified herself as the baby's aunt and stated the baby's mother had asked her to bring the baby to the hospital on her behalf. The aunt was given a bracelet with a number matching the anklet placed on the baby; this would provide some identification in the event the mother changed her mind about surrendering the baby and wished to reclaim the baby in the 14-day period allowed by the Law. The aunt was also provided with a medical questionnaire and said she would have the mother complete and mail back in the stamped return envelope provided. The baby was examined by medical staff and pronounced healthy and full-term. He was placed with a loving family that had been approved to adopt him by the Department of Children and Family Services.

Ley de Entrega de Bebés Sin Peligro

¿Qué es la Ley de Entrega de Bebés sin Peligro?

La Ley de Entrega de Bebés sin Peligro de California permite la entrega confidencial de un recién nacido por parte de sus padres u otras personas con custodia legal, es decir cualquier persona a quien los padres le hayan dado permiso. Siempre que el bebé tenga tres días (72 horas) de vida o menos, y no haya sufrido abuso ni negligencia, pueden entregar al recién nacido sin temor de ser arrestados o procesados.

Cada recién nacido se merece la oportunidad de tener una vida saludable. Si alguien que usted conoce está pensando en abandonar a un recién nacido, infórmele que tiene otras opciones. Hasta tres días (72 horas) después del nacimiento, se puede entregar un recién nacido al personal de cualquier hospital o cuartel de bomberos del condado de Los Angeles.

¿Cómo funciona?

El padre/madre con dificultades que no pueda o no quiera cuidar de su recién nacido puede entregarlo en forma legal, confidencial y segura dentro de los tres días (72 horas) del nacimiento. El bebé debe ser entregado a un empleado de cualquier hospital o cuartel de bomberos del Condado de Los Ángeles. Siempre que el bebé no presente signos de abuso o negligencia, no será necesario suministrar nombres ni información alguna. Si el padre/madre cambia de opinión posteriormente y desea recuperar a su bebé, los trabajadores utilizarán brazaletes para poder vincularlos. El bebé llevará un brazaletes y el padre/madre o el adulto que lo entregue recibirá un brazaletes igual.

¿Qué pasa si el padre/madre desea recuperar a su bebé?

Los padres que cambien de opinión pueden comenzar el proceso de reclamar a su recién nacido dentro de los 14 días. Estos padres deberán llamar al Departamento de Servicios para Niños y Familias (Department of Children and Family Services) del Condado de Los Ángeles al 1-800-540-4000.

¿Sólo los padres podrán llevar al recién nacido?

No. Si bien en la mayoría de los casos son los padres los que llevan al bebé, la ley permite que otras personas lo hagan si tienen custodia legal.

¿Los padres o el adulto que entrega al bebé deben llamar antes de llevar al bebé?

No. El padre/madre o adulto puede llevar al bebé en cualquier momento, las 24 horas del día, los 7 días de la semana, siempre y cuando entreguen a su bebé a un empleado del hospital o cuartel de bomberos.

¿Es necesario que el padre/madre o adulto diga algo a las personas que reciben al bebé?

No. Sin embargo, el personal del hospital o cuartel de bomberos le pedirá a la persona que entregue al bebé que llene un cuestionario con la finalidad de recabar antecedentes médicos importantes, que resultan de gran utilidad para cuidar bien del bebé. El cuestionario incluye un sobre con el sello postal pagado para enviarlo en otro momento.

¿Qué pasará con el bebé?

El bebé será examinado y le brindarán atención médica. Cuando le den el alta del hospital, los trabajadores sociales inmediatamente ubicarán al bebé en un hogar seguro donde estará bien atendido, y se comenzará el proceso de adopción.

¿Qué pasará con el padre/madre o adulto que entregue al bebé?

Una vez que los padres o adulto hayan entregado al bebé al personal del hospital o cuartel de bomberos, pueden irse en cualquier momento.

¿Por qué se está haciendo esto en California? ?

La finalidad de la Ley de Entrega de Bebés sin Peligro es proteger a los bebés para que no sean abandonados, lastimados o muertos por sus padres. Usted probablemente haya escuchado historias trágicas sobre bebés abandonados en basureros o en baños públicos. Los padres de esos bebés probablemente hayan estado pasando por dificultades emocionales graves. Las madres pueden haber ocultado su embarazo, por temor a lo que pasaría si sus familias se enteraran. Abandonaron a sus bebés porque tenían miedo y no tenían nadie a quien pedir ayuda. El abandono de un recién nacido es ilegal y pone al bebé en una situación de peligro extremo. Muy a menudo el abandono provoca la muerte del bebé. La Ley de Entrega de Bebés sin Peligro impide que vuelva a suceder esta tragedia en California.

Historia de un bebé

A la mañana temprano del día 9 de abril de 2005, se entregó un recién nacido saludable a las enfermeras del Harbor-UCLA Medical Center. La mujer que llevó el recién nacido al hospital se dio a conocer como la tía del bebé, y dijo que la madre le había pedido que llevara al bebé al hospital en su nombre. Le entregaron a la tía un brazaletes con un número que coincidía con la pulsera del bebé; esto serviría como identificación en caso de que la madre cambiara de opinión con respecto a la entrega del bebé y decidiera recuperarlo dentro del período de 14 días que permite esta ley. También le dieron a la tía un cuestionario médico, y ella dijo que la madre lo llenaría y lo enviaría de vuelta dentro del sobre con franqueo pagado que le habían dado. El personal médico examinó al bebé y se determinó que estaba saludable y a término. El bebé fue ubicado con una buena familia que ya había sido aprobada para adoptarlo por el Departamento de Servicios para Niños y Familias.

CONTRACTOR'S OBLIGATIONS AS A "BUSINESS ASSOCIATE"

UNDER THE HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT OF 1996 (HIPAA)

Under this Agreement, Contractor ("Business Associate") provides services ("Services") to County ("Covered Entity") and Business Associate receives, has access to, or creates Protected Health Information in order to provide those Services. Covered Entity is subject to the Administrative Simplification requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and regulations promulgated thereunder, including the Standards for Privacy of Individually Identifiable Health Information ("the Privacy Regulations") and the Health Insurance Reform: Security Standards ("the Security Regulations") at 45 Code of Federal Regulations Parts 160 and 164 ("together, the "Privacy and Security Regulations").

The Privacy and Security Regulations require Covered Entity to enter into a contract with Business Associate in order to mandate certain protections for the privacy and security of Protected Health Information, and those Regulations prohibit the disclosure to or use of Protected Health Information by Business Associate if such a contract is not in place.

Therefore, the parties agree as follows:

1.0 DEFINITIONS

- 1.1 "Disclose" and "Disclosure" means, with respect to Protected Health Information, the release, transfer, provision of access to, or divulging in any other manner of Protected Health Information outside Business Associate's internal operations or to other than its employees.
- 1.2 "Electronic Media" has the same meaning as the term "electronic media" in 45 C.F.R. § 160.103. Electronic Media means (1) Electronic storage media including memory devices in computers (hard drives) and any removable/transportable digital memory medium, such as magnetic tape or disk, optical disk, or digital memory card; or (2) Transmission media used to exchange information already in electronic storage media. Transmission media include, for example, the internet (wide-open), extranet (using internet technology to link a business with information accessible only to collaborating parties), leased lines, dial-up lines, private networks, and the physical movement of removable/transportable electronic storage media. Certain transmissions, including of paper, via facsimile, and of voice, via telephone, are not considered to be transmissions via electronic media, because the information being exchanged did not exist in electronic form before the transmission.
- 1.3 "Electronic Protected Health Information" has the same meaning as the term "electronic protected health information" in 45 C.F.R. § 160.103. Electronic Protected Health Information means Protected Health Information that is (i) transmitted by electronic media; (ii) maintained in electronic media.
- 1.4 "Individual" means the person who is the subject of Protected Health Information, and shall include a person who qualifies as a personal representative in accordance with 45 C.F.R. § 164.502(g).

- 1.5 “Protected Health Information” has the same meaning as the term “protected health information” in 45 C.F.R. § 164.503, limited to the information created or received by Business Associate from or on behalf of Covered Entity. Protected Health Information includes information, whether oral or recorded in any form or medium, that (i) relates to the past, present, or future physical or mental health or condition of an Individual; the provision of health care to an Individual, or the past, present or future payment for the provision of health care to an Individual; (ii) identifies the Individual (or for which there is a reasonable basis for believing that the information can be used to identify the Individual); and (iii) is received by Business Associate from or on behalf of Covered Entity, or is created by Business Associate, or is made accessible to Business Associate by Covered Entity. “Protected Health Information” includes Electronic Health Information.
- 1.6 “Required By Law” means a mandate contained in law that compels an entity to make a Use or Disclosure of Protected Health Information and that is enforceable in a court of law. Required by law includes, but is not limited to, court orders and court-ordered warrants; subpoenas or summons issued by a court, grand jury, a governmental or tribal inspector general, or any administrative body authorized to require the production of information; a civil or an authorized investigative demand; Medicare conditions of participation with respect to health care providers participating in the program; and statutes or regulations that require the production of information, including statutes or regulations that require such information if payment is sought under a government program providing benefits.
- 1.7 “Security Incident” means the attempted or successful unauthorized access, Use, Disclosure, modification, or destruction of information in, or interference with system operations of, an Information System which contains Electronic Protected Health Information. However, Security Incident does not include attempts to access an Information System when those attempts are not reasonably considered by Business Associate to constitute an actual threat to the Information System.
- 1.8 “Services” has the same meaning as in the body of this Agreement.
- 1.9 “Use” or “Uses” mean, with respect to Protected Health Information, the sharing, employment, application, utilization, examination or analysis of such Information within Business Associate’s internal operations.
- 1.10 Terms used, but not otherwise defined, in this Paragraph shall have the same meaning as those terms in the HIPAA Regulations.

Business Associate agrees to make its internal practices, books and records relating to the Use and Disclosure of Protected Health Information available to the Secretary of the federal Department of Health and Human Services for purposes of determining Covered Entity's compliance with the Privacy and Security Regulations. Business Associate shall immediately notify Covered Entity of any requests made by the Secretary and provide Covered Entity with copies of any documents produced in response to such request.

by 45 C.F.R. § 164.501, make the Protected Health Information specified by Covered Entity available to the Individual(s) identified by Covered Entity as being entitled to access and copy that Protected Health Information. Business Associate shall provide such access for inspection of that Protected Health Information within two (2) business days after receipt of request from Covered Entity. Business Associate shall provide copies of that Protected Health Information within five (5) business days after receipt of request from Covered Entity.

Business Associate shall, to the extent Covered Entity determines that any Protected Health Information constitutes a “designated record set” as defined by 45 C.F.R. § 164.501, make any amendments to Protected Health Information that are requested by Covered Entity. Business Associate shall make such amendment within ten (10) business days after receipt of request from Covered Entity in order for Covered Entity to meet the requirements under 45 C.F.R. § 164.526.

- 2.8 Accounting of Disclosures. Business Associate agrees to maintain documentation of the information required to provide an accounting of Disclosures of Protected Health Information in accordance with 45 C.F.R. § 164.528, and to make this information available to Covered Entity upon Covered Entity's request, in order to allow Covered Entity to respond to an Individual's request for accounting of disclosures. However, Business Associate is not required to provide an accounting of Disclosures that are necessary to perform its Services if such Disclosures are for either payment or health care operations purposes, or both. Additionally, such accounting is limited to disclosures that were made in the six (6) years prior to the request (not including disclosures that were made prior to the compliance date of the Privacy Rule, April 14, 2003) and shall be provided for as long as Business Associate maintains the Protected Health Information.

Any accounting provided by Business Associate under this Section 2.8 shall include: (a) the date of the Disclosure; (b) the name, and address if known, of the entity or person who received the Protected Health Information; (c) a brief description of the Protected Health Information disclosed; and (d) a brief statement of the purpose of the Disclosure. - (a) Provide an opportunity for Business Associate to cure the breach or end the violation, and terminate this Agreement if Business Associate does not cure the breach or end the violation within the time specified by Covered Entity; or
- (b) Immediately terminate this Agreement if Business Associate has breached a material term of this Paragraph and cure is not possible; or
- (c) If neither termination or cure are feasible, Covered Entity shall report the violation to the Secretary of the federal Department of Health and Human Services.

4.3 Disposition of Protected Health Information Upon Termination or Expiration

- (a) Except as provided in paragraph (b) of this section, upon termination for any reason or expiration of this Agreement, Business Associate shall return or destroy all Protected Health Information received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of the Protected Health Information.
- (b) In the event that Business Associate determines that returning or destroying the Protected Health Information is infeasible, Business Associate shall provide to Covered Entity notification of the conditions that make it infeasible. If return or destruction is infeasible, Business Associate shall extend the protections of this Agreement to such Protected Health Information and limit further Uses and Disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such Protected Health Information.

VMware Considerations for BizRights

- BizRights can run in a VMware environment. If virtual servers are used, the customer must take care that the BizRights application still receives the required amount of resources. If, for example, another application is on the virtual server and happens to take or be given additional resources contention and performance issues could arise.
- BizRights is a database intensive application requiring the majority of the CPU and RAM available to ensure that it processes the extractions and rule analysis as quickly as possible whenever they are scheduled.
- In a shared environment (such as VMware) – BizRights can have a performance impact on other applications that are leveraging the same VMware infrastructure as well as other applications can have the same performance impact on BizRights.

VMware Considerations for BizRights (Continued)

- For BizRights to perform optimally in a VMware environment, the customer's administrators have to consider carefully how they allocate CPUs, RAM and disk space to BizRights as well as to the other applications that are under the same VMware environment. If the CPUs, RAM or disk space is modified or allocated incorrectly to BizRights or other applications while BizRights is in the middle of its extractions or analysis, it can have a performance impact on the application as well as the end users.
- Customers that are running BizRights in a VMware environment have significant expertise in VMware deployments. Their administrators are able to monitor and adjust the CPUs, RAM and disk space as needed to ensure that BizRights always has the necessary required resources to run optimally.
- The virtual server requirements would be the same for the Approva instances – The full virtual server would need to be larger depending on what other applications are on that environment. The virtual server would need to be large enough to allocate all the necessary resources noted for both the Approva Database and application server.

Ad-hoc Data Analytics	
4.86	Describe any desktop-based software recommended by vendor for ad-hoc data mining and data analysis to supplement web-based functionality.....
Response:	<p>Approva BizRights ships with a rich library of out-of-the-box, actionable reports, and no desktop-based software is required to effectively use the solution.</p> <p>That said, if the user would prefer to manipulate BizRights data within Microsoft Excel, for example, that is made easy via delivered OLAP cubes.</p>
Reporting Requirements	
4.87	Identify and describe the software's reporting tool.....
Response:	BizRights out-of-the-box reporting is delivered by Microsoft SQL Reporting Services (SRS), which is a component of our technology stack.
4.88	Identify any and all pre-built reports and describe how reports are created, stored, and archived in the system.....
Response:	Out-of-the-box BizRights reports are provided at a trending, summary, and detail level, and report on exceptions identified by our business rules. End users are able to control data filtering and presentation via our GUI. New reports may also be created via the SRS report writer. Reports and all BizRights data are stored in the BizRights Microsoft SQL Server database.
4.89	Describe how the system will integrate with COGNOS, the County's standard reporting tool.....
Response:	COGNOS can report on BizRights data by creating a connection either to the BizRights SQL Server database, or our OLAP cubes using the COGNOS authoring tools.

Response:	<ol style="list-style-type: none"> 1. We allow user entered data enrichment of level II and III data for card and expense transactions. We will flag transactions missing this data and route it via workflow to cardholder/traveler for input. Reporting is monitored for responses with configurable reminders and escalations. 2. We can route exceptions for remediation through workflow. Open items are tracked for delinquency. Exceptions can be sent to multiple paths with escalations. 4.91	Describe in detail the library of pre-built analytics available in the system and how they would be applied to CGI's Advantage Financials. The County's preference is for a CCM software solution that utilizes the software's existing controls library and requires minimal customization. Proposer must indicate how much time would be needed for customization and identify the associated costs.....
Response:	<p>Approva BizRights delivers a comprehensive library of business rules across all areas of CCM, including configuration, user access, master data, and transactions, and encompass all processes referenced in this RFP. Our easy to use, graphical rule building interface makes configuring them to meet LA County's needs very straightforward. A sample set of controls in respect to the Accounts Payable process is attached in Appendix A.</p> <p>Approva is responding to this RFP along with CGI. Only Approva and CGI can assure an accurate configuration of business rules against the CGI Advantage application. The knowledge of the CGI application and the business controls contained within CGI Advantage cannot be duplicated by any vendor other than the combined team of CGI and Approva. Integration of the CGI Advantage application and the Approva platform will be performed by the combined Approva and CGI team. 4.100	The proposer must identify any third-party consultant who may assist Proposer with the integration of the CMM software to the County's CGI software and describe the third-party consultant's role in the integration.....
Response:	<p>CGI, the creator of CGI Advantage will be assisting Approva with the integration of Approva BizRights and CGI Advantage. CGI and Approva have worked together to integrate CGI software and Approva before (see CGI qualifications). US Courts is a joint Approva and CGI reference. CGI will be assisting Approva with an understanding of the CGI security and database model and with the integration. This will give the County the best possible controls solution.</p> <p>Approva experience write up</p> <p>CGI develops and markets two comprehensive public sector ERP solutions, AMS Advantage for state and local government, and Momentum for federal agencies. CGI recently teamed up with Approva to provide a continuous control and monitoring solution that could be integrated with our ERP software.</p> <p>By integrating Approva BizRights with our ERP software, government agencies can more readily detect material misstatements in financial reports and continuously test whether their internal controls are functioning as designed. During the controls evaluation process, agency management teams can quickly gather evidence regarding how each internal control was applied, the consistency with which it was applied, and who applied it.</p> <p>The Administrative Office of the United States Courts (Courts) has been a long-term CGI client, using Momentum to manage their financial transactions and reporting for the past 13 years. CGI and Approva recently launched a four-phase project to deliver continuous controls monitoring for 94 Courts that make up the US Courts jurisdiction. The joint model of Momentum with Approva's BizRights, referred to by the Courts and ICE (internal controls evaluation), is designed to prevent and detect material misstatements in financial reports and continuously test whether Momentum's internal controls are functioning as configured for the Courts. The implementation is following a four phase approach, with the first three already completed:</p> <ul style="list-style-type: none"> • Phase I <ul style="list-style-type: none"> ▪ Implement separation of duty (SoD) rules to fourteen district court clerk offices and one circuit court clerk's office. ▪ Completed - April 30, 2008. • Phase II <ul style="list-style-type: none"> ▪ Create and monitor Momentum transactions based on an initial set of 50 data mining reports provided by the Office of Audit. ▪ Completed- September 30, 2008. • Phase III <ul style="list-style-type: none"> ▪ Expand ICE to all other court units within the fifteen Phase I courts.
